الإهداء

إلى ابنائنا و بناتنا زملائنا وزميلاتنا طلاب و طالبات سوداننا العظيم

الشكر والتقدير

تشكر إدارة الباحثين السودانيين كل من ساهم في كتابة المرشد إلى المنح الدراسية من طلاب و طالبات هذا الوطن العظيم من المتحصلين على منح دراسية سابقة والذين سطوروا لنا معلوماتهم القيمة وتجربتهم العلمية العظيمة.

المقدمة

الحمد لله رب العالمين و الصلاة و السلام على نبينا محمد و على آله و صحبه وسلم تسليما كثيرا...و بعد

مؤسسة الباحثين السودانيين تضع امامك ايها الطالب والطالبة السودانيين كتاب "المرشد إلى المنح الدراسية". ويتبع إصدارات المؤسسة السابقة "[الدليل الإرشادي لطلاب وطالبات البكالوريوس والدراسات العليا في السودان](#)" و "[المرشد حول امتحان الايلتس](#)" و "[الدليل الإرشادي للثانر السوداني](#)".

مؤسسة الباحثين السودانيين هي مؤسسة سودانية، علمية، تطوعية، غير حكومية و غير ربحية تهدف لخلق منصة مشتركة للتفاعل بين المتعلمين والباحثين السودانيين لتأسيس ودفع زخم البحث والتعليم في السودان. تأسست سنة ٢٠٠٩ عبر جهود مجموعة صغيرة من الطلاب و الباحثين السودانيين الشغوفين بمصلحة الوطن و على رأسهم الدكتور أنور فتح الرحمن أحمد دفع الله (مؤسس المجموعة)، و قد توسعت بسرعة حتى أصبحت في عام ٢٠١٩ أكبر منصة رقمية في شبكات التواصل الاجتماعي للباحثين و الطلاب السودانيين بما يفوق نصف مليون عضو و مشترك.

نحن نصبوا إلى وضع معيار يوازي نجاحات إصداراتنا المختلفة. ويظل سؤال الباحثين عن المنح أحد الأسئلة الجذرية التي نتناولها من خلال هذا الإصدار بهدف اختصار المسافة للطالب عن طريق إكسابه المعلومة (لتصبح بديهية) مما يمكنه من الدفع اماما دون اعادة تدوير ما سبقه به الآخرون.

ومن هذا الأساس يأتي كتاب المرشد إلى المنح الدراسية مليئا طموح الطالب حيث يتضمن الكتاب خطوات البحث و التقديم للمنح مع نماذج وأمثلة عملية. ويتناول أنواع المنح المختلفة، مبادئ التصنيف الجامعي وطرق اختيار الجامعة المناسبة. ايضا يحتوي الكتاب على قاعدة بيانات مفصلة للمنح الدراسية التي حصل عليها أعضاء مؤسسة الباحثين السودانيين. لا بد أن تدرك أن الاستفادة من المنح الدراسية التي تقدمها الجامعات والدول والبرامج الأكاديمية العالمية ليس من المستحيلات ولكن يتطلب البحث الجاد، الاعتماد على الذات والرغبة الحقيقية في الدراسة وعدم الاستسلام. ولذا نأمل أن تجد في هذا الكتاب معلومات مفيدة تستطيع الاستفادة منها في تحقيق طموحك وتحفيزك نحو الوصول لأهدافك الدراسية.

و نود هنا أن نقدم الشكر لكل من ساهم في اخراج هذا العمل من السودانيين الحائزين على منح دراسية في مختلف أنحاء العالم. والشكر موصول ايضا لمشرفي المجموعة الذي كان لهم الفضل بعد توفيق الله في إتمام هذا العمل وإنجازه على أكمل صورة.

إيناس السر مبارك عن ،،

إدارة مجموعة الباحثين السودانيين 30/4/2020

مقدمة عن المنح الدراسية وأنواعها

تعريف المنحة الدراسية

المنحة الدراسية هي دعم مادي لتغطية رسوم الدراسة والمعيشة تقدمه حكومات و جامعات الدول من مختلف أنحاء العالم للطلاب المتفوقين أكاديميا و تقدم هذه المنح للمراحل والدرجات الدراسية المختلفة والتي يمكن تقسيمها على النحو التالي:

1- درجة البكالوريوس (Bachelor)

2- درجة الماجستير (Master)

3- درجة الدكتوراة (Doctorate)

4- منح بحوث ما بعد الدكتوراة (Post-doctoral)

يمكن تقسيم المنح الدراسية المقدمة للطلاب إلى نوعين من المنح :

*منح دراسية كاملة (Full Scholarship/Fully Funded)

تتكفل هذه المنحة بتغطية رسوم الدراسة و المعيشة و التأمين الصحي و التنقل بين بلد الإقامة وبلد الدراسة و قد تغطي التكاليف المعيشية لأسرة الطالب في حالة كان متزوج و يصطحب أسرته معه.

*منح دراسية جزئية (Partial Scholarship/Partially Funded)

تغطي هذه المنحة الرسوم الدراسية فقط و لا تتكفل بتغطية تكاليف معيشة الطالب و قد تغطي جزء من الرسوم و يتكفل الطالب ببقية مصاريفه من مصادره الخاصة أو عن طريق العمل في الجامعة كمساعد باحث أو مساعد تدريس أو أي عمل آخر بما يتوافق مع قوانين وأنظمة الجامعة ودولة الدراسة .

و للاطلاع أكثر ننصح بمراجعة هذا المقال من خلال الرابط <https://lookinmena.com/> ماذا تعني منحة دراسية/

أنواع المنح الدراسية

يمكن تقسيم المنح الدراسية التي تقدم للطلاب الدوليين (الطلاب من جنسيات دول أخرى الذين لا يحملون جنسية الدولة التي تقدم المنحة) إلى الأنواع التالية:

1- منح الاستحقاق أو الجدارة الأكاديمية : تمنح للطلاب المتفوقين أكاديمياً و قد تمنح أيضاً للطلاب الموهوبين و الذين يشاركون في الأنشطة التطوعية أو المجتمعية و غيرها.

2- منح التدريس/ البحث: هي منح تشتترط على المتحصل عليها المساعدة في التدريس أو إجراء بحوث مرتبطة بمشروع معين ممول من جهة حكومية أو خاصة وغالبا تتطلب هذه المنحة التواصل المباشر مع المشرف و الحصول على موافقته قبل تقديم الطلب.

3- منح بحسب الاحتياج المادي: يعتمد هذا النوع من المنح على وضع الطالب المادي و يتم الاختيار حسب معايير معينة تعتمد على المستوى المعيشي المرتبط بدخل الطالب بالإضافة لحد أدنى محدد من درجاته الأكاديمية . و غالبا تكون هذه المنح موجهة للدول النامية والفقيرة .

4- منح المؤسسات التعليمية: تشمل مساعدات مالية للطلاب تقدمها جهات مانحة تتعاون مع المؤسسة التعليمية و قد تكون موجهة لبرامج معينة مثلاً منحة للهندسة أو منحة الطب أو التمريض .

5- منح المرأة: هي منح مخصصة لدعم النساء و لها شروط تحددتها الجهة المانحة .

6- منح الموهوبين: تقدم هذه المنحة للطلاب ذوي المهارات الخاصة أو المواهب الفنية و عادة ترتبط بمجال الدراسة المتوفرة فيه المنحة.

7- منح الرياضيين: هذا النوع من المنح يعتبر أقل نشاطا. و تقدم هذه المنح وفق معايير اختيار صارمة للفرق الرياضية في الجامعة .

التصنيف العالمي للجامعات

مقدمة

التصنيف العالمي للجامعات (World University Ranking) هو مقياس سنوي تصدره مؤسسات متخصصة كمقياس لجودة التعليم العالي والبحث العلمي لمختلف جامعات العالم ، وتضع هذه الجهات المتخصصة معايير محددة على أساسها يقوم التقييم و هذه المعايير تختلف من جهة إلى أخرى حسب ما تعتبره الجهة صاحبة التصنيف أكثر أهمية في عملية التقييم. ويعتمد التقييم على إعطاء نسب مئوية معينة لكل معيار بحيث يكون مجموع المعايير الكلي 100% و في عملية التقييم تعطى الجامعة المعنية درجات معينة لكل معيار و النتيجة الكلية تكون بحاصل جمع النتائج المفردة.

أنواع التصنيفات الجامعية

فيما يلي ثلاثة من أشهر التصنيفات العالمية والتي تجد موثوقية و قبول في الوسط الأكاديمي والبحثي:

تصنيف كيو إس لأفضل الجامعات

<https://www.topuniversities.com/university-rankings>

هو تصنيفٌ سنوي تقوم به مؤسسة كواكواريلي سايموندرز البريطانية (QS) Quacquarelli Symonds، ويهدف إلى رفع مستوى المعايير العالمية للجامعات عن طريق تقييم أكثر من 1000 جامعة على مستوى العالم وفقاً للمعايير التالية:

- السمعة الأكاديمية للجامعة 40%: تعني إستطلاع آراء الخبراء والأكاديميين في الجامعات من مختلف أنحاء العالم حول تلك الجامعة.
- سمعة الجامعة لدى المشغلين و أصحاب العمل 10%: تعني ثقة أصحاب العمل بالجامعة و مدى تفضيلهم لتوظيف خريجها.
- نسبة أعضاء هيئة التدريس إلى الطلاب ونسبته 20%.
- نسبة الاستشهاد العلمي والأبحاث الصادرة عن الجامعة نسبته 20%.
- نسبة أعضاء هيئة التدريس و الطلاب الدوليين بالجامعة ونسبته 10%.

ما رأيك في الدليل؟ لطفاً استخدم [الإستطلاع](#)|| تريد اضافة معلومة؟ استخدم الاستمارة هنا: [استمارة المنح الدراسية](#)||

تصنيف مؤسسة التايمز

<https://www.timeshighereducation.com/world-university-rankings>

- وهو تصنيفٌ سنوي تقوم به مؤسسة التايمز البريطانية للتعليم العالي (Times Higher Education) و يغطي ما يقارب 1500 جامعة على مستوى العالم، حيثُ وضعت شروطاً تُمكن الجامعات ذات الطابع البحثي دُخول التصنيف اعتماداً على المعايير التالية:
- التدريس أو البيئة التعليمية 30%: و يتناول واقع البيئة الجامعية من خلال:
- شهرة الجامعة عبر استطلاعات تجريها شركة تومسون رويترز يشارك فيها علماء وباحثون من كل أنحاء العالم.
- نسبة درجات الدكتوراه إلى البكالوريوس.
- نسبة أعضاء هيئة التدريس إلى الطلاب.
- عدد درجات الدكتوراه الممنوحة من قبل الجامعة.
- دخل وميزانية الجامعة.
- البحث الأكاديمي 30%: و يتم تقييمه وفقاً للآتي:
- السمعة الأكاديمية بين الجامعات العالمية من خلال اجراء استطلاعات الرأي.
- دخل الجامعة من البحث.
- الإنتاجية البحثية ؛ و يأخذ بالإعتبار عدد الأبحاث العلمية المنشورة من قبل أعضاء هيئة التدريس بالجامعة في قاعدة بيانات المجلات و الأبحاث العلمية Scopus الصادرة عن شركة إلسيفير Elsevier.
- الاستشهاد أو الإقتباس العلمي 30%: يتناول مدى تأثير الأبحاث التي تصدر عن الجامعة من خلال متوسط عدد مرات الاستشهاد (Citations) بها من قبل الباحثين حول العالم.
- النظرة الدولية للجامعة 7.5%: يركز على مدى التنوع البشري و التعاون الدولي للجامعة؛ أي نسبة الطلاب و أعضاء هيئة التدريس الدوليين إلى نظرائهم المحليين، كذلك نسبة وجود باحثين دوليين من خارج الجامعة ضمن الأبحاث المنشورة من قبل للجامعة.
- الدخل من القطاع الصناعي 2.5%: و يقصد به العائد الناتج عن تعاون الجامعة مع القطاع الصناعي من خلال أنشطة نقل المعرفة مثل تقديم الابتكارات و الاختراعات.

تصنيف شنغهاي أو التصنيف الأكاديمي

<http://www.shanghairanking.com/index.html>

- جامعة جياو تونغ شنغهاي في الصين (Shanghai Jiao Tong University)، و منذ العام 2009 بات يصدر من مؤسسة إستشارات شنغهاي رانكينج (Ranking Consultancy Shanghai) و هي منظمة مستقلة تُعني بجمع و تحليل المعلومات المتعلقة بالتعليم العالي. على الرغم من أن الهدف الأولي لهذا التصنيف هو مقارنة الجامعات الصينية مع نظيراتها في العالم إلا أنه توسع ليشمل تقييم 1800 جامعة حول العالم بشرط امتلاكها المؤهلات الأولية للمنافسة، و من ثم يصدر قائمة بأفضل 1000 جامعة معتمداً على المعايير التالية:
- جودة التعليم 10%: يأخذ بالاعتبار عدد خريجي الجامعة الحاصلين على جوائز أو ميداليات عالمية في مختلف التخصصات.
- جودة أعضاء هيئة التدريس 40%: يشير إلى عدد أعضاء هيئة التدريس في الجامعة الحاصلين على جائزة نوبل أو ميداليات عالمية في مختلف التخصصات، وكثرة الاستشهاد بأبحاثهم المنشورة في المجلات و الدوريات العالمية.
- مخرجات البحث 40%: يركز على عدد الأبحاث المنشورة في دليل الاقتباس العلمي الموسع (SCIE) و دليل إقتباس العلوم الاجتماعية (SSCI) و اللذان يصدران ضمن قاعدة بيانات المجلات و الأبحاث العلمية ISI المملوكة لمؤسسة Clarivate Analytics.
- الأداء الأكاديمي بالنسبة لحجم الجامعة 10%: يقوم بحساب نسبة الدرجات التي حصلت عليها الجامعة في المعايير أعلاه إلى عدد أعضاء هيئة التدريس بالجامعة.

ما رأيك في الدليل؟ لطفا استخدم [الإستطلاع](#)|| تريد اضافة معلومة؟ استخدم الاستمارة هنا: [استمارة المنح الدراسية](#)||

منهجية عامة لاختيار الجامعة المناسبة

نتيجة للتباين في المعايير التي تعتمد عليها هذه التصنيفات و بالتالي اختلاف المراكز التي تحتلها الجامعات في كل تصنيف، نجد أن الجامعة الواحدة قد تحرز ترتيباً متقدماً في احد التصنيفات و متأخراً أو متوسطاً في التصنيفات الأخرى. لكن هذا الإختلاف و التباين هو في الحقيقة نقطة إيجابية و ليست سلبية؛ إذ أنه يوفر قدر كبير و متنوع من المعلومات عن المستوى الأكاديمي للجامعات و تخصصاتها و إنتاجها البحثي و كفاءة طاقمها التدريسي بل و حتى مدى التنوع الطلابي و الثقافي لديها. فمثلاً لو كان الطالب يبحث عن الجامعات ذات المستوى الأكاديمي/البحثي المتميز فقط بغض النظر عن العوامل الأخرى فالأفضل له أن ينظر في تصنيف شنغهاي (Shanghai Ranking)، و إذا كان الطالب يبحث جامعة متميزة أكاديمياً و بحثياً و في نفس الوقت ذات طابع دولي و تنوع بشري عالي بين طلابها و اساتذتها فالأفضل له النظر في تصنيف التايمز (THE Ranking). أما إذا كان الطالب يبحث عن جامعة ذات شهرة واسعة بين نظيراتها و يتمتع خريجها بسمعة جيدة في سوق العمل فيمكنه النظر في تصنيف كيو إس (QS Ranking).

تتيح كل هذه التصنيفات إمكانية البحث المخصص من خلال مواقعها الإلكترونية؛ بمعنى أنه يمكنك البحث عن ترتيب الجامعة في بلد أو منطقة معينة مقارنة مع الجامعات الأخرى في نفس البلد أو المنطقة، كما يمكنك البحث عن ترتيب الجامعة وفقاً لمعيار معين كجودة التدريس أو المنظور الدولي مثلاً. أيضاً يمكن البحث عن ترتيب الجامعة وفقاً لمجال معين (كالهندسة و التكنولوجيا بصفة عامة، الطب و العلوم الصحية، علوم الكمبيوتر و تكنولوجيا المعلومات،...إلخ) أو تخصص محدد (كالهندسة المدنية او الميكانيكية، طب الأسنان، القانون، إدارة الأعمال،...إلخ)، مما يسهل عملية البحث و تحديد الجامعة المناسبة بل و حتى المفاضلة بين جامعتين أو أكثر بصورة منطقية و حيادية حسب رغبات و تفضيلات الطالب و النتائج التي يريها من دراسته.

بعد القيام بتحديد الجامعة بناءً على ما سبق ذكره، يمكن للطالب أن يدخل إلى الموقع الإلكتروني للجامعة (غالباً موجود ضمن البيانات المصاحبة للجامعة في موقع التصنيف) و يتصفح المعلومات الموجودة فيه لمعرفة أنواع المنح و الدعم المالي المتاح، و القيام بتصفح ملفات اعضاء هيئة التدريس و الباحثين بالجامعة لأخذ فكرة عامة عن مؤهلاتهم و مجالاتهم البحثية و تحديد مدى التناسب مع المجال الذي يرغب الطالب في دراسته.

متطلبات القبول للجامعات

أغلب الجامعات تشترط اجتياز امتحان اللغة الإنجليزية الأيلتس IELTS أو ال TOFEL كشرط أساسي في عملية القبول للجامعة خاصة إذا كانت الجامعة تعتمد على اللغة الإنجليزية كلغة اساسية في الدراسة ، كما أن البعض يشترط أيضا اجتياز امتحان المقدرات GRE .

امتحان الايلتس

بشكل عام هناك نوعان من الإمتحان : أكاديمي و عام والغرض من الإمتحان تحديد مستوى اللغة الإنجليزية بدقة للممتحن للجهة الطالبة للإمتحان ، و تلك الشهادة معتمدة عالمياً لدى كبريات الجامعات والمؤسسات الأكاديمية . حيث يمثل الشق الأكاديمي للإمتحان إحدى متطلبات القبول لتلك الجامعات سواء كان التقديم عن طريق منحة أو تقديم مسبق الدفع .

***لمزيد من المعلومات عن امتحان الأيلتس الأكاديمي الرجاء الإطلاع على المرشد حول الايلتس (محمد أحمد حسين- هشام موسى) من خلال الرابط:**

https://drive.google.com/file/d/1LDesyrOGg-PTQDL16xYKmYMNP02vU5s4/view?fbclid=IwAR2pWh_osjEEMTHUk-zEpgMI1_xSBd3FNbzioTL-raqmkygldPXZHIXkWRs

امتحان التوفل

امتحان التوفل هو اختبار اللغة الإنجليزية للأشخاص الذين يستعملون اللغة الإنجليزية كلغه ثانيه لقياس مستواهم باللغه الإنجليزية ويستخدم بشكل رئيسي في الغالبية العظمي من الجامعات والكليات الأمريكية وجامعات كثيرة حول العالم

ما رأيك في الدليل؟ لطفاً استخدم [الاستطلاع](#)|| تريد اضافة معلومة؟ استخدم الاستمارة هنا: [استمارة المنح الدراسية](#)||

كاختبار معتمد وجزء مهم من متطلبات القبول والتسجيل والدراسة بتلك المؤسسات الدراسية. يتم إعداد اختبار توفل من قبل منظمة ETS الأمريكية.

يوجد نوعان من اختبار التوفل :

1- الامتحان الورقي للتوفل TOEFL PBT

2- الامتحان عن طريق الإنترنت TOEFL IBT

يختلف اختبار التوفل الورقي عن الاختبار عبر الإنترنت اختلافاً كبيراً في مدة الاختبار وعلامات الاختبار درجة الصعوبة وأقسام الاختبار يمكن تلخيصها في الآتي :

المقياس	الامتحان الورقي للتوفل TOEFL PBT	الامتحان عن طريق الإنترنت TOEFL IBT
المدة	3 ساعات ونصف	4 ساعات ونصف
العلامات	677	120
درجة الصعوبة	ورقي	استخدام الحاسوب
الأقسام	ثلاثة أقسام: القراءة، القواعد، والاستماع، بالإضافة إلى قسم رابع منفصل خاص بكتابة مقالة.	أربعة أقسام تشمل القراءة، الاستماع، التحدث والكتابة

تختلف الرسوم باختلاف البلد في السودان يمكن التسجيل للتوفل في مدرسة الخرطوم الامريكه ورسوم التسجيل تكلف 205 دولارا أمريكيا.

*** لمزيد من المعلومات عن التسجيل للامتحان في السودان الرجاء زيارة موقع المدرسة على الرابط التالي :**

<https://www.krtams.org/welcome/index.php/counseling/us-standardized-tests/toefl-exam.html>

ما رأيك في الدليل؟ لطفا استخدم [الاستطلاع](#)|| تريد اضافة معلومة؟ استخدم الاستمارة هنا: [استمارة المنح الدراسية](#)

* أما اذا كنت تقيم خارج السودان فيمكنك التسجيل على رابط موقع ETS

<https://www.ets.org/toefl/>

GRE امتحان المقدرات

امتحان ال GRE أو Graduate Record Examination هو امتحان عالمي موحد لتقييم المقدرات في اللغة الإنجليزية، و مهارات التحليل الكمي لتحصيل القبول في مرحلة الدراسات العليا في الولايات المتحدة أو كندا (بصورة أساسية). يتم تنظيم و وضع الامتحان من قبل مؤسسة ETS (Educational Testing Service)، و هي ايضا الجهة التي تتولى عملية التسجيل للامتحان عبر موقعها في الانترنت.

يتكون الامتحان من ٣ أقسام:

1. قسم مهارات اللغة الإنجليزية العامة – Verbal Reasoning: و يشمل المفردات، القراءة و التحليل
 2. قسم الرياضيات – Quantitative section: و يشمل مهارات الرياضيات في المرحلة الثانوية (ما قبل الجامعة)
 3. قسم للكتابة – Analytical Writing: و يشمل مهارات كتابة المقالات بالانجليزية
- يكون تقييم القسمين الأول و الثاني عبر اختيار الإجابة الصحيحة من عدة خيارات متاحة، و لأن الامتحان رقمي، فإن الطالب يعرف نتيجته لهذين القسمين بعد الامتحان مباشرة. مقياس الدرجات للقسمين الأولين هو من ١٣٠ إلى ١٧٠. أما القسم الثالث فهو مقال، و لذلك لا تظهر نتيجته إلا بعد أسبوعين تقريبا و هي في مقياس من ٠-٦. هذا الامتحان رقمي و يتم عبر الانترنت في مراكز اختبارات محددة في شتى دول العالم بما فيها السودان، و لكن في السودان يتم الامتحان بصورة ورقية و يكون التسجيل عبر موقع مدرسة الخرطوم <http://www.krtams.org/welcome/> . أما في خارج السودان، فيتم التسجيل عبر موقع الامتحان الرسمي [/https://www.ets.org/gre/revised_general/register/your_ets_account](https://www.ets.org/gre/revised_general/register/your_ets_account) يحتوي الموقع ايضا على: شروط وآلية التقديم، معلومات تفصيلية عن الامتحان و مكوناته، آلية وضع الدرجات و غيرها من المعلومات الهامة، فلذلك لا بد لك من الرجوع للموقع الرسمي. في حال أخذ الامتحان عبر الكمبيوتر في مركز اختبار معتمد، فيمكن للطالب بعد الفراغ من الامتحان و رؤية نتيجته لأول قسمين إرسال نتائجه مباشرة لأي جامعة في العالم باستعمال رمز محدد (و هذا إجراء مهم تطلبه كل الجامعات).

هنا أيضا بعض التوجيهات الهامة بخصوص هذا الامتحان:

ما رأيك في الدليل؟ لطفًا استخدم [الاستطلاع](#) | تريد اضافة معلومة؟ استخدم الاستمارة هنا: [استمارة المنح الدراسية](#) |

- كل ما يتعلق بهذا الامتحان، بما في ذلك كيفية التسجيل و حجز موعد الامتحان، موجود في الموقع الرسمي: <https://www.ets.org/gre>
- هذا الامتحان هو مطلوب في الأساس للتخصصات العلمية مثل الهندسة، و لذا تركز بعض الجامعات التي تطلبه على نتائج قسم الرياضيات فقط
- هذا الامتحان ليس مطلوباً لكل الجامعات في الولايات المتحدة و كندا، و لذا، لا بد للطالب من التحقق من شروط كل جامعة على حدة.
- بعض الجامعات في الدول الخليجية تتطلب هذا الامتحان كشرط أساسي للقبول في مرحلة الدكتوراة، و يكون تركيزهم غالباً على قسم الرياضيات، و تعد درجة ١٦٠/١٧٠ فما فوق درجة جيدة جداً لهذا القسم
- ال GRE ليس صعباً، ولكن يحتاج لاستعداد جيد و عادة ما تكون فترة أسبوعين إلى ثلاثة أسابيع من الاستعداد الجاد كافية لتحصيل درجة عالية. هنالك الكثير من المراجع في الانترنت و الامتحانات التجريبية التي يمكن حلها للاستعداد، كما توفر مؤسسة ETS أيضاً امتحانات تجريبية مجاناً لكل طالب يسجل عبر الموقع و يدفع رسوم الاختبار (هي حالياً ٢٠٥ دولار أمريكي)
- مقياس درجات القسمين الأولين يبدأ من ١٣٠، فبالتالي تعد ١٣٠ نتيجة موازية لصفر!
- الامتحان محدد بزمان معين لكل قسم و الأقسام الثلاثة موضوعة بترتيب معين و الفترة الزمنية الكلية هي تقريباً ٣ ساعات و ٤٥ دقيقة، مع العلم أنه يحق للطالب تجاوز قسم كامل، و في هذه الحالة سيتحصل على نتيجة صفر في ذلك القسم.

*** هذا الرابط يحتوي على إجابات بعض الأسئلة الشائعة عن الامتحان:**

[/ https://www.ets.org/gre/revised_general/faq](https://www.ets.org/gre/revised_general/faq)

الاستعداد للتقديم للجامعة

بصورة عامة، يتطلب التقديم لأي جامعة إعداد مجموعة من المستندات والخطابات كجزء من متطلبات القبول للدراسة أو المنح أيضا. وتشمل هذه المستندات والخطابات الآتي: جواز السفر، شهادات المرحلة الثانوية، شهادات البكالوريوس (في حال التقديم للدراسات العليا)، خطاب التعريف الشخصي، خطابات التوصية من أساتذة جامعيين أو مراجع مهنية، وغيرها من الخطابات أو المستندات التي تختلف من جامعة لأخرى، ولذا لا بد من الرجوع دائما لموقع الجامعة الرسمي.

و فيما يلي نبذة عن أبرز الخطابات و كيفية اعدادها، و نظرا لأن أغلب الجامعات حول العالم تعتمد اللغة الإنجليزية لغة رسمية للتدريس، فإن النماذج المذكورة هنا مكتوبة بالانجليزية.

تنبيه: النماذج المذكورة في هذا القسم هي للتوضيح فقط و لا يجوز استعمالها كما هي في التقديم لأي جامعة!

Personal statement

What is a personal statement? *

It's a structured essay that allows you to present a convincing snapshot of you and why you aspire to be a (accountant, doctor, engineer, lawyer, pilot, translator, etc.). Utilize it to say what other aspirants cannot say, while still maintaining a professional tone. This “**personal statement**” comprises carefully selected information that is modeled into an “original/authentic story” that reveals one's motivation to become in an intended position.

- Personal statement should include a brief, small, bite-sized representation overview of who you are, your strengths and any work experience and/or education you've got as a professional, and what you have to offer in terms of experience and ambition.
- Be sure to include skills you've gained, such as time management, customer service, teamwork, computer skills etc.

Why it is important?

Because it acts as the gateway between your application and admittance. If all grades are equal and everyone has similar extra-curricular interests, the **personal statement** will make you noticeable. It gives your **personal reasons** and the journey that has motivated you to pursue the field/study that you are applying for.

For instance, if you don't have any practical work experience, you can always touch on your academic accomplishments or transferable skills gleaned over the years.

How to write a personal statement?

Before start writing your personal statement, make sure it is about to answer the following questions:

- Why do this position/ job/ role interest you?
- Why are you suited to this position/ job/ role?
- Do you have any previous jobs or training that relate to this line of work?
- Have you taken part in any projects that help demonstrate your capabilities?
- What specialist skills do you have that make you an ideal candidate?

What is personal statement writing structure?

Please see the Motivational letter structure.

- Examples of Personal Statements Prepared by the Admissions Office University of Toronto Faculty of Law.

https://www.law.utoronto.ca/documents/JD/UofT_Law_Personal_Statements_Examples.pdf

How to write a cover letter for a scholarship?

What Is a Cover Letter?

It's simply a letter you write to the scholarship committee. In the letter, you should explain what makes you a great candidate for the award. You should also talk about how the scholarship will help you reach your educational and career goals.

The scholarship committee wants to invest their resources in the most fitting applicants, so, make them see the reasons why they should invest in you.

Why a Cover Letter?

There are always minimum requirements applicants must satisfy. The requirements can include but not limited to academic records, language test scores, age, a list of extracurricular activities, etc. However, many scholarship committees look for something else. They look at students who have overcome struggles, students who are leaders in their community, and students who have unique hobbies or achievements. Your cover letter is the place to highlight your uniqueness.

Note that not every scholarship application requires applicants to submit a cover letter, but when they ask, it's a great idea to submit a great one. Use the opportunity to think about how you can make yourself stand out from other applicants.

What Should Your Cover Letter Accomplish?

Your cover letter should do the following:

- 1. Highlight your strengths: Why do your strengths make you a good match for the scholarship?**
- 2. Express what your plans are for the future: How will this particular scholarship help get you there?**

3. Convey a clear structure: Your cover letter should flow in a clear and concise manner.

How Should You Organize Your Cover Letter?

The letter should be around 1-2 pages and it is not recommended to go over that. Make the font 12 or 14 and use double spacing to make it easy to read. A typical cover letter consists of the following:

1. The header

The header is organized as the following:

Name of Applicant

Address of Applicant

City, State, Zip Code

DATE

Name of Head of Scholarship Committee (If available)

Name of Scholarship or Institution

Address of Institution

City, State, Zip Code

1. Subject line

Provide a relevant subject title, e.g.; “Application for [NAME of SCHOLARSHIP] cover letter”

1. Introductory paragraph

Start with “Dear Sir., Madam., Mr., etc...” in a separate line, then give a short introductory statement and purpose for writing.

1. Second Paragraph

This paragraph should talk and focus on the educational and career goals of the applicant. It is appropriate to discuss interests and the chosen field of study.

5. Third Paragraph

This paragraph needs to focus on strengths. If there are any extracurricular activities or if this person has done any community or voluntary work, it should be stated here. Any academic awards or achievements also need to be listed in this paragraph.

6. Final paragraph

Finally, tell them confidently you are capable enough to complete the program successfully. do not forget to close with thank you and some words of appreciation.

7. Signature

End the letter with:

Sincerely,

Signature of Applicant

Printed Name of Applicant

If the letter is being sent via Email the subject line should have your full name followed by Application for [NAME of SCHOLARSHIP]. End the email with *Best regards*, your *first and last name* and your *phone number*.

Make sure you spell check your cover letter and proofread it several times. A cover letter with grammar mistakes will not make you look like a professional and well-educated student.

Armando Gutierrez
4215 Duval St

Example of a cover letter

Adrian Clark
ULN Coordinator
2304 Whitis Ave
Austin, TX, 78712

Dear Mr Clark,

Having been accepted to UT Austin for the 2019 fall term to pursue a Bachelor's in Architecture, I am writing to express my desire to participate in the University Leadership Scholarship Program. For as long as I can remember, I've had a strong passion for architecture, my favorite Texas landmark being the pink granite edifice of the State Capitol. I'm particularly excited by the opportunity to join a network of leaders who help to maintain UT Austin's reputation as a world-leading public research university.

My parents came to Texas as immigrants and have worked tirelessly in low paid jobs to provide for our family. If I am accepted to the program, I would be the first member of my family to benefit from a college education. My goal is to use my education to give

ما رأيك في الدليل؟ لطفا استخدم [الاستطلاع](#) || تريد اضافة معلومة؟ استخدم الاستمارة هنا: [استمارة المنح الدراسية](#) ||

back to the community. I want to specialize in designing affordable and environmentally sustainable housing. My passion for this field was inspired by my winning virtual city design for the National Future City competition, and I am all too aware of the impact of high housing costs and environmental destruction on underprivileged communities.

Servant leadership is the philosophy I intend to follow as a program participant and alumni. I want society to benefit from my education and UT Austin to gain prestige as an institution providing innovation for the greater good. This scholarship would enable me to achieve these aims. In fact, my high school principal is an alumnus of the program. She has been a huge inspiration to me and many others, and I hope to follow her example should I be accepted.

Please get in touch to arrange a meeting with me. I'd love to tell you more about my upbringing and my desire to give back to my community through my further education.

Best Regards,
Armando Gutierrez

P.S. I'd also love to discuss how my experience in volunteer mentoring and academic coaching of younger students could contribute to the program's leadership aims.

Motivation Letter

What is a Motivational Letter?*

It is also called ‘‘ Personal Statement’’. It is a one page letter in which you have to describe your eligibility for a certain position, like a job, internship, scholarship, university student or volunteer.

It is a way for boosting your curriculum vitae (CV), put on support of what is mentioned in it and a maximizing chance to be considered as a qualified candidate.

- **Note: what mentioned in your resume should not be repeated in the motivational letter.**

The Structure of the Motivational Letter

Part 1

Opening Line: in the opening line you should

- ❖ State the purpose of the application
- ❖ Introduce yourself

Final Line: in the final line of the introduction

- ❖ Give summary of your current state/ position
- ❖ Why are you applying?
- ❖ How the application or opportunity matches you

Model for Introduction:

Dear *[Name of the Contact Person]*,

My name is *[Your name]* and I would like to express my interest in applying for the Doctoral program in political science at *[University Name]*. I've always dreamed of becoming a politician and helping give back to my country, and I believe that a Ph.D. in politics from *[University Name]* would set me miles ahead to reaching my goal.

Part 2

Main Body (A)

- ❖ Include your past achievements and academic performance.
- ❖ Mention your good language skills as well as can-do attitude.
- ❖ Show the interest toward the university/company
- ❖ Hint your good working experience, ethics and practical training.

Model for Main Body:

I developed my passion for Online Marketing during my internship at *[company name]*. Working in a small startup allowed me to get surface-level experience in most digital marketing channels. Now, I would like to deep-dive and gain advanced know-how by attending the *[university name]* program in Digital Marketing

Part 3

Main Body (B)

- ❖ Bring up any problems can be solved or problem solving skills you had, which can be related to the applied scholar or study. This will make you a strong option to choose you.
- ❖ Proactivity and challenges, which make you a strong candidate.

ما رأيك في الدليل؟ لطفا استخدم [الاستطلاع](#) || تريد اضافة معلومة؟ استخدم الاستمارة هنا: [استمارة المنح الدراسية](#) ||

- ❖ Matching and understanding the perspective of the study like (you experiences & subject)

Part 4

The Closing

A conclusion/ final statement; it is very important. You must include valid points within the procedural process; for example: if an interview is mentioned in the admission, you should ask for an interview.

Model of a closing :

1. I believe I'd be a good fit for the program because of (.....)
2. Thank you for reviewing my motivation letter (.....)
3. I gladly await your response (.....)

Remember to enclose your personal contact information as the example below:

Best Regards,

Insert Name (.....)

Address, contact information (.....)

Important points , you keep on mind :

- You must know what ad where you are applying to
- You share the organization's values. Be specific
- Read the program requirements carefully in the scholarship website/ company website
- Be clear by stating your passion and showing your intelligence interest to be chosen
- Do not lie ! this will reflect in your case/ form

Example of a motivation letter

1-Motivation letter for a Master's in Computer Science

Dear sir/madam,

First of all, let me introduce myself, I am [name] and recently I have been working in Ethio Telecom as a Network Engineer. I have attended my B.Sc. degree in Computer Science and Engineering (Software Engineering Stream) from [university name].

The undergraduate curriculum in Computer Science and Engineering at institute of technology, [university name]; Ethiopia introduces me to a wide variety of engineering subjects. Various courses like Artificial Intelligence (Robotics), Programming Languages, Electronics I&II, Software Engineering, System Programming, Microprocessor, Interfacing & Assembly, Algorithm Analysis and Design, Digital Signal Processing, Network and System Security, Digital system, Algorithm analysis and design, Computer graphics and multimedia, Computer Simulation and Modeling provided me with a strong footing in the theoretical concept of Computer Science and Engineering.

While offering both depth and breadth across this field, these courses put into perspective the importance and relevance of Computer Science and Engineering and the application of its fundamentals to the problems faced by the real world. So, I can realize that learning and developing my knowledge of Computer Science. I will have a great contribution to society since our country begins to transfer the manual system to computerization.

I am very eager to adopt learn know new technologies. I am really enthusiastic to attend a Master of Computer Science in order to understand different Computer Science Concepts because every industry needs the concept of Computer Science. The good reputation of high-quality education standards, an extremely distinguished faculty members, and research facilities are the factors which have motivated me to choose for my M.Sc. studies the [university name].

Moreover, I feel I am responsible for making a big move in this field and this scholarship will give me a big chance to be one day someone who is remembered for his innovations. I

think it is our duty as people sharing life in this world to make our future better because the future is not only ours. Our grandchildren should be proud of us one day when they look back and find how hard we worked to make the world a better place. I believe my qualification and your needs would be an excellent fit. I will be happy to provide any further information or documents if required. I look forward to your positive response. Thank you for your time and consideration.

Yours faithfully,

Written by Alexandru Pop and first published in mastersportal.com.

2-Motivation letter for a Master's in Advanced Optical Technologies

If you want to pursue a graduate degree in engineering and technology you might want to check out this example of motivation letter from a student from Ethiopia who succeeded being accepted to a Master's degree in Advanced Optical Technologies offered by a university in Germany. Get inspired and write your own personal motivation letter that will convince universities that you're the candidate they're looking for

Dear Sir/Madam,

I am very glad to apply for a Master's study in Advanced Optical Technologies (MAOT). I am from Ethiopia and I graduated from [university name], one of the top-ranked universities in the country, in Electrical and Computer Engineering (Communication) with a Bachelor of Science degree program. I was awarded a distinction honor's degree with a GPA of 3.62/4.00 and I am among the top three ranked graduates in this field of study in the year 2013. After my graduation, I have been working as an assistant lecturer for undergraduate electrical and computer engineering students in the same university and department I graduated, [university name].

A couple of reasons motivate me to apply for a Master's degree study in advanced optical technology. Firstly, when I attended my undergraduate study I came across the adventures of scientists, researchers, engineers and technologists to make the data transmission effective and easy by the use of optical technologies. I often spend most of my work time on reading and assimilating different journals, articles, papers and research topics about optics as a whole and specifically on its impact in communication. Considering the current advancements of fiber optics and laser technology application in communication, impresses me a lot and thereby motivates me to pursue my postgraduate study in optical technology and related study area. I demonstrated good understanding and grades in subjects related to optics during my B.Sc. study. Besides, I attend some public lectures and laboratory demonstrations in optics. My secondary tertiary and B.Sc. study in schools and universities where English is the medium of instruction. Besides, I scored 7 in IELTS academic module which clears my English language proficiency. Therefore, I strongly believe that my educational qualification and motive towards the subject matter makes me a suitable candidate for your program.

It is well-known that Germany is one of the best countries in Europe where there are a number of best universities. My desire to pursue my postgraduate study emanates not only from this but also from the similarities in academic organization between my country and Germany since most educational curricula in my country are created from the experience of German's. Besides, from my early age, I am highly interested to know the culture and norms of German people.

The concrete reason for my choice to take part specifically in MAOT is the in-depth training in the fundamentals of optical technology and the chance to get a highly interdisciplinary program which brings together experts and knowledge from different related fields of Engineering, Physics, Computer Science and Medicine, unlike other universities in optical technologies. The presence of optical communication in further applications of six main topics of optical technology where two will be major makes my

choice ideal. But my intention to apply in your program is not only due to the presence of the discipline but also to benefit from the scholarship. Indeed, it is true, there is no other program that meets my need like MAOT, since it provides detailed training in the basics and applications of optical technologies and has six different, currently demanding, specialization areas which include optical communication.

Generally, I believe that I fulfill all the criteria for your program and I am highly motivated on the field of optical technologies. So, I will be glad to take part in your program and I hope I will join your academy in this session to achieve my educational and future career goals.

Thank you for your time to consider my application. Hoping to hear from you soon!

With best regards!

Website: mastersportal.com

3- Sample statement of purpose- business management Ph.D. example:

This essay also illustrates how you need to present yourself in an all-round light, especially when you're applying for management courses. It pays to stay in touch with the prevailing ethos that schools believe in. While many of us may have had socially relevant experiences, it takes a certain savvy to highlight them while applying to schools that care.

“ I am applying for admission to the Ph.D. program in Business Administration because I want a career in the research and teaching of management. In particular, I am interested in factors that affect the competitive performance of a business concern, and the manner in which changes in technology affect an organization's structure, long-term business strategy, product development, manufacturing, supply chains, distribution network, information needs and standard systems. In order to gain an appreciation of these and

related issues, it is essential for me to have a strong grounding in Economics, Supply Chain Management, and issues connected with Information Technology, as well as gain a General Management perspective.

I believe that the Ph.D. program in Business Administration (with concentration in Management) would be invaluable in helping me achieve these objectives. It would enable me to channel my quantitative and conceptual skills in analyzing business issues and would open up new avenues in research. Subsequent to earning a Ph.D., I would like to apply for a faculty position at a leading university; and investigate issues concerned with technology as it affects organization strategy, structure and systems.

I believe that my background in engineering and management has prepared me for such a career. I have found research fascinating since my engineering days, where I received the highest marks in the Department for my final-year undergraduate dissertation; and was judged to have presented the best paper at a Departmental seminar. My four years of engineering education have provided me with a strong grounding in mathematics (I stood first in my Department for each of the four Math papers) and the theoretical aspects of technology.

I joined ABC Business School in order to broaden my perspective and to improve my career prospects. Economics and psychology - subjects new to me - were interesting, and I enjoyed applying quantitative and conceptual skills to analyze business problems. I did very well in projects, desk research, workshops and class discussion; although academically I did not perform to my satisfaction (I finished with a GPA of 2.91, partly due to health reasons). I was voted as one of the ten most promising students in my batch, and received a national-level award for the best business school project, awarded by the Institute of Management Consultants of India. This was for a summer project, entitled "Formulation and Implementation of a Marketing Strategy for Handicrafts, a unit of the Special Person's Association".

Upon graduating from business school I was offered a job with AZ & Co., a management consulting firm which ranks as among India's largest. This is where I learned how to apply

the principles and lessons of management to real life. It was fascinating; and transformed my interest in management research into a passion. I read extensively, trying to keep myself informed about management thinking in my areas of work - structure and systems in an industry and organization, industrial marketing and strategy.

I have learnt a lot from my present job. With the rest of my team, I have analyzed markets and examined supply and distribution networks for such diverse products and industries as bulk chemicals, fresh fruit exports, toys, packaging machinery, retailing, adhesives, diamonds and pharmaceuticals. I have helped formulate entry strategies, plans for expansion and diversification; and also company business plans. As part of a team, I have carried out preliminary feasibility studies; compared technology options; suggested to the Forex Bank of India, a plan for improving the export competitiveness of India's Chemicals Sector; and studied government schemes for their efficacy. I have studied in detail the organization structure and systems for one of India's largest manufacturers of automobiles and helped in the restructuring of the company as well as the redesigning of their new systems.

These assignments have involved interaction with people at all levels of the value chain, and at organizational levels from the Chairman of a \$ 200 million firm to a packing clerk earning \$1 daily. They have given me the opportunity to interview a number of policy makers, industry analysts and economists in an effort to understand the functioning of, and important issues connected with, each of these industries.

All this has given me valuable insights into the environment in which companies operate - how they affect this environment and are affected by it. It has enabled me to observe some of the better and worse ways of running a business. Certain assignments have been thought provoking; my most recent assignment, on the redesigning of a company's structure and systems, helped me understand the necessity of good organization structures, and appreciate the significance of systems that work well. A study on the export competitiveness of India's chemicals sector brought home to me the importance of technology in determining a company's or industry's competitiveness. An assignment

involving the evaluation of an air freight subsidy scheme for exporters of fresh fruits raised fundamental questions in my mind about the efficacy of subsidies in improving the competitiveness of an industrial sector, and encouraged me to look at more lasting measures instead.

The time limitation on each assignment has taught me to plan well, work systematically and keep my reports up-to-date. At the same time, having to defend my analyses and recommendations, during both internal discussions and presentations to clients, has taught me to think rigorously and creatively. Our extensive use of computers for analysis and preparation of presentations and reports has made me familiar with spreadsheet, word processing and presentation packages.

While the highly diverse nature of assignments has helped me gain a broad exposure to Indian industry, it has not been possible for me to study specific business and technology - related issues in depth. I realize that in order to be able to do so, I need a better understanding of the various facets of management; the interlinkages between different functional areas and between different business entities. Equally important, I need further training in research methodology.

I want to do a Ph.D. at the College of Business, XYZ University for many reasons. I have heard about XYZ's Ph.D. program in Business Administration from my business school professors and am impressed with the emphasis placed on technical and analytical skills, general management orientation and rigorous research methodology. The School's strengths in supply chain management and information management are commensurate with my research interests. The faculty's reputation for excellent teaching, challenging coursework and the excellent facilities are added attractions.

While the study of and research in management is my prime objective today, my interests in literature, music, travel and nature help me maintain a sense of perspective in life. I like to write and have had some articles published in Indian newspapers. I have organized and participated in a number of extra-curricular activities during my college days and have won university and national level prizes in debating, writing and quizzes. I also believe

that each of us must give something back to society - to this end, I have worked on a voluntary basis for the Hunger Project for a year; as a teacher and counselor to physically and mentally handicapped children for three years; and as a reader to blind students. Today, I contribute to a local organization that focuses on the environment of my hometown, Allahabad.

I hope that the admissions committee finds my background and strengths commensurate with the requirements of XYZ's Ph.D. program in Business Administration. ”

4 - Sample Statement of Purpose – Electrical & Computer Engineering M.Sc. example:

Tamir Suliman – Johns Hopkins University

Perhaps the most important influence that has shaped the person I am today is my upbringing in a traditional family-oriented Sudanese and Nubian culture. My family has been an important source of support in all of the decisions I have made, and my guiding principles which are good words, good deeds, and good thoughts. Not only do I try to do things for others, but I always push myself to be the best that I can be in all aspects of my life. I saw early the doors and opportunities that a good education can open up; thus, I particularly tried hard to do well in school.

Another important experience that has had a large influence on me the past few years has been college. Going from high school to college was a significant change. College required a major overhaul of time-management techniques as the number of things to do mushroomed. College, also, is full of diversity. I have people of all backgrounds and abilities in my classes, and this experience has made me more tolerant of differences.

In addition to that, in the college I found that I was studying something I enjoyed. I believe it is because I enjoy my life and my work that I have been successful. Spending hours in the laboratory is not something that I dread, but instead I take pride in my work and its

successful completion. One example of this that is still fresh in my mind is the successful coding of machines state equations modeling matrix in MATLAB and later on undergraduate computer application class project and later on the design and the program of PLCs ladder diagrams for a part of petroleum- Control system on last year final project. All told, the project took over 150 hours of each of my team mate members. However, I did not look on it as a drain, but an experience for learning and a focus for my professional and technical development. When we completed the project, we felt the sense of worth and pride in completion of a task that was once above our level of knowledge. Pursuing a graduate degree in the field I have chosen also feels like a challenge, and I know that study will frustrate me at times. However, I feel that my commitment to learning will not be swayed. I feel confident in my ability to be creative in my perspective, and to persevere. My ultimate goal is to be an innovator in the field I have chosen to study. Professionalism and creativity are my most valued strengths.

As a Johns Hopkins University student, I would commit all that I have to offer to my study. I intend to pursue research in Big Data Security Systems which was something I worked on through the last ten years of my career in Cyber Security with. As a cyber security engineer, I had already conducted some research on Big Data and Cyber Security Systems design for power systems electric grid applications, resulting in great saving for our organization that I hope I can take way further with my graduate study.

Building on my past success and experience in cyber security and data; I hope to advance my understanding through research at the graduate level, it is my hope to become familiar with, or innovate the design of Big data and security Systems in hopes of creating a reliable and practical Big data based security systems interface for use in Power or Control Systems industry.

From my own research into Johns Hopkins University, I feel confident in my knowledge of the Engineering program and its potential to teach me, and after talking with your graduate faculty adviser, I'm even more convinced that Johns Hopkins computer engineering program is right for me.

Finally, my intent to pursue graduate study is laid plain. In particular, my M.Sc. research would be a system driven research and it will be about enabling a general platform for analyzing electric or industrial grid systems threats data. As it's known that contextual Analytics of various threat data provides a deeper understanding of a threat and enables identification of unknown threat vectors. Through the use of big data analytics and deep learning data correlation across different threat types, a better understanding of where, how and to what level of danger a malicious actor poses to an organization. It also provides measures to prevent future threats and available sustainable solution.

From my previous experiences and current interests, I see myself doing interdisciplinary research with researchers from Electrical Engineering, Information Security and Computational informatics in big data analysis for threats data. My research approach is to identify the most general version of a new problem possible, and search for innovative solutions that are elegant, widely applicable and highly implementable in regards to employing security tools integrated with big data to achieve that goal.

I am committed to my goal in pursuing this degree, and I have closely analyzed myself to determine the reasons for my previous successes and my goals for the future. I have found that I do and have always enjoyed computer technologies and engineering, and that I have a strong desire to pursue my study further. I am prepared to commit myself to that study, and achieve what I have set out to do.

Academic Scholarships for Sudanese

Merit scholarship (Sweden)

Scholarship Country	Brief description about the scholarship	Scholarship information
Sweden	<p>The Swedish Institute Study Scholarship provides a number of full scholarships for master’s programs in Sweden. The program is open to students who are citizens of countries on the OECD/DAC list. The program offers a unique opportunity for future leaders to develop professionally and academically, to experience Swedish society and culture and to build a long-lasting relationship with Sweden and each other.</p>	<ul style="list-style-type: none"> ● Scholarship for MSc. ● Number of Awards for Sudanese is not specified but the number of Sudanese recipients ranged between 14-21 in last year. ● Scholarship value: full scholarship covering living costs and tuition fees. ● Scholarship duration: up to 2 years. It’s for programs start in autumn semester only ● Application starts in October till January every year. ● Scholarship requirements (English test/(s)): * Note that English language proficiency certificate (IELTS/British council) is one of the requirements by the embassy to get the visa, and not

		<p>necessarily required by the university for the application.</p> <ul style="list-style-type: none">● Scholarship is awarded by: Government scholarship
